Coronavirus Home Visit Pre-screening Questions

1. Have you developed a fever or are you having any symptoms such as cough or difficulty breathing withing the last 24 hours?

- Difficulty breathing or shortness of breath
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

2. Because symptoms take 2-14 days after exposure, may we know if you have travelled to:

- any European country or anywhere outside the U. S. in the last 2 weeks?
- Washington State, California, or anywhere outside GA in the last 2 weeks?

***IF ANY OF YOUR CLIENT ANSWERS YES TO ANY OF THE PRESCREENING QUESTIONS ABOVE,
PLEASE, DO NOT MAKE THE VISIT.***

INSTEAD, EDUCATE THEM USING THE SCRIPT BELOW:

**(As a cherished team member, please, if you have any of the COVID-19 symptoms,
before your visit to a client or while you are at a client's home,
also follow the protocol below:)**

3. If you think you are sick:

- Stay home except to get medical care
- Separate yourself from other people and animals in your home

4. If you are experiencing any of the above symptoms or think you have been exposed to COVID-19

- Call ahead before visiting your doctor
- Wear a facemask if you are sick
- Cover your coughs and sneezes
- Clean your hands often
- Avoid sharing personal household items
- Clean all "high-touch" surfaces everyday
- Monitor your symptoms

5. Call 911 if you have a medical emergency: notify the dispatch personnel that you have or are being evaluated for COVID-19. If possible, put on a facemask before emergency medical services arrive.
